

# SAFETY INTERNET DAY

02/08/2022

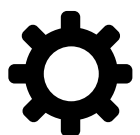

## CREATE STRONG PASSWORDS.

Do not reveal your password to anyone. By setting a strong password you can keep your personal information safe. Choose a combination of letters, capital or small, numbers or symbols that you can easily remember. **Nikos V , Dimitris L , Spiros , Glykeria, Dimitris M**

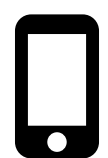

## BE CAREFUL OF WHAT YOU DOWNLOAD.

Do not download content from unknown websites. Be careful not to enter websites that are not suitable for your age group. **Dimitris G , Nikos V**

## AVOID SHARING PERSONAL INFORMATION.

Do not share personal information such as your name, address, phone number as well as your date of birth with strangers online. **Giannis K, Giannis A, Artemis**

## THINK BEFORE YOU POST.

Do not post offensive photos, videos or comments. We should be careful not to send photos or videos that offend ourselves or others or write comments that might displease our friends. Always remember that whatever we upload online stays there forever. **Pantelis , Vasileia , Stamatianna , Dimitris G**

## BEWARE OF FAKE FRIENDS.

Do not chat online or play games with strangers. Unfortunately, sometimes people pretend to be people they aren't. You never know for sure who they are and if their online identity is real or fake. **Christos , Giannis G, Konstantina , Stavros M**
